Dear Search Committee,

It is with great pleasure that I compose this recommendation for Mr. Chris Enders. I served as Chris' principal for the 2015-16 school year. And, I would absolutely recommend Chris for rehire next school year. This past year Chris served as math teacher at East Jessamine High School. I feel very fortunate that Chris came to East High. He connected so well with all our students. I am certain that he will do the very same thing for his future students and school.

Chris has provided very essential math instruction for East High students. Chris is flexible, dependable, intentional, organized, and timely. However, the most impressive aspects of Chris' teaching are his demeanor and passion for students and learning. Chris has an uncompromising belief that all students can learn at very high levels. Furthermore, Chris' students often remark that his classroom is friendly and inviting.

Chris Enders is an outstanding teacher. Solid math teachers are very hard to find. Now's your chance to grab an awesome one. Don't miss your opportunity.

Please accept this letter as my highest recommendation for Chris Enders. If you have any questions, please do not hesitate to contact me.

Sincerely,

Aaron L. Etherington, Principal
